

# I-con User Registration Process

Version 1.0 | June 8, 2026 | I-con v2.100.2012

## Step 1: Submit User Information

Please provide the following information for each user to your Infinitum Account Manager:

- Company name
- User's first and last name
- Email address
- Assigned Infinitum Account Manager

## Step 2: Account Setup

Infinitum will create the user account and grant appropriate access. If the user is not already a Motor Selection Tool (MST) user, MST permissions will also be included.

## Step 3: User Notification

Once account setup is complete, each user will receive a registration confirmation email. Your Infinitum Account Manager will be copied on this communication.

## Training Preparation

To ensure a smooth training experience, please complete the following before scheduling training:

- Obtain the required equipment (*see Equipment and Accessories section below*)

*Note: It is recommended that the account setup (Step 2) be completed shortly before the scheduled training session.*

## Step 4: Schedule Training

Coordinate with your Infinitum Account Manager to schedule training.

## Equipment and Accessories
